PRICE THREE CENTS

LADS!

Who Want to be Hoosier Bandits.

They Attempt to Wreck Wabash Trains to Get Even For Injuries Inflicted on Them.

Wells in Illinois are Drying Up, and People Out There are Much Alarmed.

BOY BANDITS.

Three Hoosier Lads Arrested for Wrecking a Wabash Train.

PERU, Ind., Sept. 9.—Detectives Potter and Marshall yesterday morning arrested and lodged in jail Jesse Schlott, aged twelve; Frank Shields, aged fourteen, and Phil Bender, aged eighteen, on a charge of attempting to wreck a train on the Eel River division of the Wabash railroad, about one month ago, at Mexico. The boys were in the habit of boarding outgoing trains and riding a mile or two. The trainmen kindly advised them to stop the practice, fearing an accident might befall them. The boys did not heed the advice, and, one day shortly before the attempted wrecking, they boarded the train, thinking they would have their usual ride, when the engineer pulled out a little faster than usual. The boys jumped off, and all received slight injuries. They all finally recovered and, it is supposed, entered into a plot to wreck a train, as it was but a few days afterward when the attempt was made. Large stones and trees were piled on the track. The evidence seemed sufficient to fasten the crime upon these boys, who are all sons of respectable people.

DRYING UP.

Wells and Ponds Succumb to the Terrible Drought.

CHICAGO, Sept. 9.—A special from Tolono, says: The drought in this locality is getting to be a serious matter. Several weeks ago the wells began failing and now a large part of them are dry. Every stream and pond about here, excepting only the Kaskaskias river on the west and the Emparras on the east, is as dry as a powder house.

Geronimo to be Tried by Court-Martial.

SAN FRANCISCO, Sept. 9.—General Sheridan to-day directed General Howard to send the Apache and Warm Spring Indian tribes at once to Fort Marion, Fla., except Geronimo and the other Apache just captured, who will be taken to Fort Bowie and confined under guard until the government decides what to do with them. It is understood that they will be tried by the court-martial. They will not be handed over to the civil authorities, as the district attorney says he cannot procure the necessary evidence on which to try them. Some of them are expected turn state's evidence, in order to save themselves. The Apaches at Fort Apache will be started for Florida to-morrow.

Vermont Republican by 18,000.

BURLINGTON, Vt., Sept. 8.—Two hundred and five out of 240 towns have made returns, and the result shows that Edmunds is assured of re-election by an overwhelming majority.

The republican state ticket is elected by 17,000 to 18,000 majority. The republicans have elected all their county tickets.

The state prohibition vote will be much smaller than expected.

Professor Strunk Indicted.

NEW ALBANY, Ind., Sept. 9.—Prof. Ira G. Strunk was indicted yesterday by the Floyd county grand jury for murder in the first degree in the killing of Charles V. Hoover, and also for assault with intent to kill in the shooting of Dr. C. L. Hoover. He will be arraigned in the circuit court to-morrow morning. The trial of the case will probably begin September 27.

A Victory for the Strikers.

PITTSBURGH, Sept. 9.—A Youngstown, Ohio, special says: "The strike of the brakemen of the Pittsburgh and Western railroad ended at noon to-day in a victory for the men. The company granted the demand of the conductors yesterday but they refused to work this morning unless ten per cent increase was also given the brakemen."

THEY MET.

Capt. Scott Swann Shoots Dr. J. W. Younge and is Arrested for Attempted Murder.

Just as THE SENTINEL expected and tried to avert, Capt. Scott Swann and Dr. J. W. Younge met last evening and their bitter feud culminated in a shooting affray. The quarrels of the men are known to have begun in a contest for control of the Tri-State veteran association. Then followed bitter personal attacks, libel and counter libel suits too numerous to mention.

Mr. Swann is a man of few words, but his friends knew there would be trouble when he met the doctor, and they were not mistaken. Messrs. Sullivan and Harper, who were likewise arrested yesterday by the Huntington sheriff, talked and walked with Captain Swann and endeavored to appease his wrath.

Mr. H. C. Hanna was at Indianapolis yesterday and the captain proceeded to the depot to meet him. It was supposed Dr. Younge was at Huntington, and fearing a collision Sheriff Nelson and his deputy, Ed. Clausmeyer, followed him hastily in a carriage. Scott Swann stood on the Pittsburg side of the depot as the west-bound Wabash train pulled in. Quicker than it takes to tell it the doctor, who came from Detroit, stepped off and walked quickly towards Scott Swann, who, without a word, pulled his pistol and sent a bullet into Dr. Younge, who turned about and ran back towards the Wabash train, crying, "I'm shot!" etc., at the top of his voice. Before Swann could repeat his shot Ed. Clausmeyer disarmed him and instantly Sheriff Nelson and Officer Rohle were at his side and conveyed him to jail, after a visit to Swann's home, where the scene was heart-breaking when he related his work to his wife and daughter.

Dr. Younge in the meantime ran to Beverforden's drug store on Calhoun street, near the Wabash depot and there fell exhausted from his wound. The shot was fired when Dr. Younge's back was turned as the bullet entered his body about two inches above the hip bone on the left side. It passed through the left side of the body, cutting both the pleural sac and the peritoneum and lodged under the skin directly below the point of the lower rib, about three inches to the left of the navel, from which lodging place it was cut out by Drs. Meyers, Van Buskirk and Barnett, the consulting surgeons, after Dr. Younge was removed to his home.

Mr. C. M. Dawson, the states attorney, this morning filed an affidavit charging Scott Swann with having "feloniously, purposely and with premeditated malice and in a rude, and angry manner touched and injured with intent to kill and murder John W. Younge." On this charge Captain Swann is held in jail and Mr. Dawson will postpone a hearing, if he can't until the extent and end of the plaintiff's injuries are known. Mr. Dawson also placed the matter before the grand jury at 11 o'clock, and an indictment from that tribunal is promised.

Capt Swann does not talk about the tragedy, but his friends assert that his act was not only provoked by Younge's repeated and continued attacks, but that it was also warranted when Dr. Younge approached him holding his hand ostensibly on his hip pocket, from which a pistol was afterward taken. Last week the doctor carried two self-cocking guns, and one of them, together with Captain Swann's weapon, is in Sheriff Nelson's office safe.

At noon THE SENTINEL representative called at the residence of Dr. J. W. Younge and was admitted to the sick room. The doctor lay on his right side in a bed, moaning with pain. Blood from his wound had stained the clothing, and although under the influence of opiates he recognized the newspaper man and shook his head. "How did it happen," was asked.

"I got off the train," said the patient, "and had my cane, hand satchel, overcoat, hat box and a bundle of papers in my hands and was crossing over to get a carriage. I just reached the Pittsburg track when a pistol in the hands of that man glinted before me and I turned and ran, not being prepared for such an attack. The electric light dazzled me when I first stepped from the train and I did not see nor expect to meet him."

"Did you have your hand on your hip pocket?"

"No, sir; I had a new hat in a box, and the articles I first named. How could I have a hand in my pocket?"

Dr. Barnett says he stood in front of Beverforden's drug store when the doctor ran towards him. He says the doctor had all the articles in his left hand and that his right hand was free.

Doctor Younge is resting easy. His temperature is a little excessive. His pulse hovered at 90 and his respiration at 18. The doctors say that he is no worse, but will not predict his recovery. They say they cannot tell to what extent inflammation will set in. All night long the surgeons were at his bed side and his wife is her husband's constant attendant, while her father is there to assist her. At this writing Dr. Younge can not know his fate, but the indications are that he will live, although some doubt it.

RAILROAD EARNINGS.

Great Increase of the Pennsylvania and Grand Rapids and Indiana this Year.

The Pennsylvania's western lines seem to be helping to swell the earnings of this great system wonderfully this year. The monthly statement of the amount the net earnings have exceeded or fallen short of the liabilities, which is given for the whole Pennsylvania western system, has great value, but not as much as a full statement of the earnings and expenses. Such reports are nowhere more needed than in the territory north of the Ohio, where none of the railroads with largest traffic, like the Michigan Central, the Lake Shore, the Fort Wayne and the Pittsburg, Cincinnati St. Louis, make any monthly reports. The Grand Rapids and Indiana also reports for July contrary to its custom a gain of 15 per cent. in gross and 65 per cent. in net earnings.

Bicycle Race.

The Gazette, of this morning, speaking of yesterday's races, says that Price won the slow race but was barred out by the club.

One of the rules of this race—and it was well understood by the contestants—was that the bicycle must be kept moving forward and if it came to a standstill the rider was out of the race.

Mr. Price while making the best time, neither won the race nor was barred out by the club, but allowed his wheel to stop and was properly ruled out by the judges.

Aiding the Charleston Sufferers.

SAN FRANCISCO, Sept. 9.—A meeting of citizens was held yesterday afternoon to devise means for the relief of the Charleston sufferers. Mayor Bartlett presided and appointed a committee of thirty to collect contributions. An appeal to the public in behalf of this object will be published in the city newspapers.

Indiana Politics.

LAWRENCEBURG, Ind., Sept. 9.—Judge James Yallison was nominated for congress by the republicans of the Fourth district, Vice Van Osdel, declined.

Connecticut Republicans.

HARTFORD, Conn., Sept. 9.—At the state republican convention to-day Phineas C. Launsbury was nominated for governor on the first ballot.

Judge Cox.

CINCINNATI, Sept. 9.—The circuit court convention, republican, nominated Judge Joseph Cox by acclamation to succeed himself.

The real estate and insurance company of Glutting, Bauer & Michael has dissolved partnership. Mr. Michael retires and the business of the firm will be conducted as usual by Messrs. Glutting & Bauer.

Others Like It.

Columbia City Post.

The Allen county democracy is to be congratulated on the excellent ticket placed in the field last Saturday.

The one term principle is in vogue in Allen county; at least, it was the case in the county convention last Saturday.

Allen county democrats nominated a one-legged union soldier for recorder and now the republicans are shouting "treason!"

The double term business was settled most effectually at Fort Wayne last Saturday, and will never vex another convention in that county, even if the pending amendment should fail to become a law.

Saturday was a great day for the democratic fowl in old Allen. The ticket nominated is an invincible one and every man on it is a host in himself. Four thousand majority should greet the ticket in November.

Jas. M. Barrett and Wm. H. Shambagh were, Saturday last, nominated by the democracy of Allen county for the offices of state senator and representative. Both of these gentlemen are talented young lawyers and are well known in legal circles here.

FOREIGN NEWS.

Prince Alexander and the Bulgarian Ministers Arrive at Turn Severin.

TURN SEVERIN, Sept. 9.—Prince Alexander, Stambouloff, Karveloff, and nearly all the Bulgarian ministers arrived this morning in a yacht. Roumanian troops received the prince at the landing and lined the route along which he passed to the railway station. Alexander took leave of his ministers and officers here. The farewell was very affecting. A Bulgarian aide-de-camp will accompany Prince Alexander from here. He will leave Turn Severin this afternoon and proceed direct to his parental home at Darmstadt.

St. Petersburg, Sept. 9.—The St. Petersburg papers generally take the position that the present regency and ministry of Bulgaria contain elements of fresh complications.

DUBLIN, Sept. 9.—A conference of Catholic bishops at Maynooth, adopted resolutions to-day, declaring that the Irish people appreciated Gladstone's efforts in behalf of Ireland and that they still adhere to their demand for home rule, and indignantly denying the tory assertion that if the Irish people were allowed to govern themselves in domestic affairs, the Catholic majority would abuse the power conferred on the Irish parliament and harass the protestants of the country.

MR. SEDGWICK.

He Makes a Personal Denial of the Stories About Him.

New York, Sept. 9.—The following explains itself:

To Editor Evening Post:
Sir:—A week ago I went to a ball and stayed to the end. I went home and to bed early. Next morning my friend, Mr. Guirand, came to call upon me and found me dressing. We went out. All the officers and members of the jockey club, who are the principal people of the city, have signed a letter exonerating me from all improper behavior at any time during the ball. The gentlemen who saw me return from the ball, have signed a card that they observed nothing, except that I went towards my room. I have Guirand's statement in writing as to his calling in the morning, besides the statement of the hotel manager, that no scene or row of any kind took place in the hall, and also, that I went to my room after the ball, and no eye witness has been produced and I only know from hearsay, what the stories were circulated in the United States. Secretary Bayard has telegraphed me, that my personal denial of the scandal is enough. Make any use of this you think proper.

LOCAL CHAT.

Picked up in the Villages About us.

Next Tuesday the colored grand lodge of Masons of the state will meet in Jeffersonville, and will be in session two or three days.

The receipts of the art loan exhibition given by the G. A. R. of Wabash, were \$1,800, and the expenses \$800, leaving \$1,000 as a starter for the county soldier's monument.

Capt. Cyrus Vigus, of Logansport, celebrated his ninety-third birthday last Saturday. Aside from the pleasant recollections of his ninety-third birthday anniversary, he received his first pension money of \$50 per month, which the government recently ordered paid to him for meritorious services when a soldier in the Mexican war.

The general annual conference of the German Methodist Episcopal church for the states of Ohio, Michigan, Illinois, Kentucky, West Virginia and Indiana convened at the church in Lafayette this morning. The regular business of the conference will occupy the time until next Monday, on which day the appointment of pastors for the different states named will be made. The number of ministers in attendance is over 180.

Yesterday morning two well-dressed strangers were observed walking along the Lake Shore railroad track near LaPorte. When they reached Terre Coupe, a small station sixteen miles east of there, one of the men took a jack-knife from his pocket and deliberately cut his throat. A frightful wound was made, and it is reported that he will die. The wounded man's name is said to be Hynes.

OVER THE DISTRICT.

How the Political Work Goes On—The Gossip.

Columbia City Post.

Stanley, the second republican candidate for congress, received three votes for delegate in his township last spring against fifty-seven cast for a Lowryman.

A late estimate puts the total number of anti-Lowry men in Lagrange county at 38. They will come over to the majority before the snows flies.

The Gazette gives Lowry credit for the selection of the whole county ticket of Allen county. Lowry must be a mighty man according to the Gazette.

Is it true that Captain White voted for Tilden, Hancock and Cleveland? His supporters, some of them at least claim he did. Let some good republican answer.

Put Whitley down for at least 350 majority.

Indiana must give us 15,000 democratic majority.

The Stanley campaign seems to be passing into a state of "innocuous desuetude."

THE SEA SERPENT.

Portrait of the Monster from Descriptions by Capt. Robert Brush.

From a careful description of Capt. Robert Brush, of the schooner Mary Ann, we are enabled to present our readers with an accurate engraving of the sea serpent seen in the Hudson river by the captain, and by many others on several occasions since.

There seems to be no longer any doubt of the existence of this marine monster. For a century or more similar serpents have been seen and described, but the stories have been discredited until this summer, when, through the persistence of the monster in exhibiting itself, it can no longer be considered a myth.

In the last century a missionary to Greenland describes such a monster. This was on July 6, 1734. Soon after this the bishop of Bergen, a member of the Copenhagen Academy of Sciences, published a "Natural History of Norway," in which he collects considerable evidence to prove the existence of this serpent. In 1817 the sea serpent was first seen opposite Gloucester, Mass., and the Linnaean society of New England, after carefully investigating the alleged apparition, reported that it considered the testimony obtained "sufficient to place the existence of the animal beyond doubt." On Aug. 6, 1848, Capt. McQuane, in command of the Daedalus of the British navy, encountered a sea serpent. But this year the monster has been seen several times, notably off Gloucester on the Massachusetts coast and in the Hudson river and by highly creditable witnesses. If the animal is not eventually captured, it is to be hoped at least a photograph of him may be obtained when the accuracy of our picture of him will be established.

M'DONALD'S MISSION.

Old Saddlebags Visits Mr. Cleveland, Supposedly to Talk of the Indiana Campaign.

WASHINGTON, Sept. 9.—A special states that ex-Senator McDonald has gone to see the president at Adirondacks. Though nothing has been given out, it is understood to mean the visit is for a conference with Mr. Cleveland relative to the coming campaign. The Indiana democracy will try to prevail upon the president to make a visit to that state about the middle of October, previous to the election in November. They believe that his presence there at that time will add to the enthusiasm of the canvass and make democratic victory sure. This may be their belief, but a well known Indiana democrat here asserts that if Mr. Cleveland visits the state this fall it will cost the democrats 10,000 votes. There is no danger, however, of the president making the visit. He would not go there if he knew his presence for an hour would insure the state for the democracy.

GOOD DEMOCRATIC DOCTRINE.

It is gratifying to know that the Randall school of protectionists in the democratic party did not capture the National democratic congressional committee this year, as they have generally done heretofore. The campaign book came from the printer to-day, and is now being circulated. It contains considerable tariff literature, and of the right sort. Indeed, the book is a good old-fashioned democratic work, and speaks out plainly and boldly for a tariff for revenue only. For this the thanks of the democracy are due to Chairman Kenna, Secretary Robertson and Hon. Phil. B. Thompson, jr. The latter edited the work.

NORRIS IN JAIL.

The Famous Detective Surrounded With Vindictive Bohemian Oats Swindlers.

TIFFIN, O., Sept. 9.—John T. Norris, the great Springfield spotter, arrived in the city yesterday with a satchel full of warrants and began stirring the Bohemian oats and red line wheat rascals up in great shape. They were stirred considerably and badly scared as well. They gathered together with the "innocent" holders of the notes and their "disinterested" attorney, Judge McCauley, and decided to try a little maneuver on John T. So last night after dark Edward S. Clark appeared before Squire Jayne and swore out an affidavit charging Norris with trying to extort \$500 from him to settle one of the cases. A warrant was issued and Norris arrested. This created quite a ripple of excitement and Norris' enemies here were happy. His bail was fixed at \$500 and every one of the swindlers and a number of others tried their best to prevent his obtaining bail, and succeeded. He did not get bail and was locked up in jail. He got men to come in who were ready to go his bail, but they were surrounded, and by threats bull-dozed out of it. The trial is set for next Saturday.

HON. W. R. MORRISON was renominated for congress in the eighteenth Illinois district.

SENATOR HARRISON will open the campaign in this state for the republicans at Indianapolis next Saturday evening.

The president is expected to return to Washington next week, when Mr. Bayard, the only cabinet officer in the city, will take his vacation.

Ex-SENATOR McDONALD, of Indiana, is said to be visiting the president in the Adirondacks, presumably to discuss Indiana politics with him.

The work of the Allen county democratic central committee does not suit the republicans and it is probable that none of them will vote the democratic ticket. The republicans hate democratic harmony.

GOVERNOR GRAY opened his speech at Logansport with the declaration that he "would cut off his arm before he would lie to his audience." The governor then laid down democratic doctrine enough to put the republican press into convulsions.

The democratic campaign book was issued yesterday, and is said to contain a large amount of very interesting reading for the people. It is a good, old-fashioned democratic publication, which speaks out plainly in favor of a tariff for revenue only.

MR. J. B. STOLL, who has been criticizing President Cleveland because he did not appoint him public printer, now attacks Hon. A. P. Edgerton, the civil service commissioner. THE SENTINEL would have rejoiced in Mr. Stoll's success in his aspirations for a federal place, but it is mortifying to see him now giving the republican press democratic material to attack us with. Mr. Stoll mistakes the public sense, if he believes such a course is appreciated by his party.

THE EVANSVILLE COURIER published at the home of Capt. Lemcke, the republican nominee for state treasurer, says that gentlemen, two years ago, "voted for the democratic candidates for the legislature because he did not approve of the position taken by the republican convention of that year on the liquor question." "We shall be curious," the Courier continues, "to see how Capt. Lemcke will reconcile his candidacy upon the present platform of his party with his action of two years ago, when he repudiated a very innocent declaration on the liquor question, comparatively speaking, and voted for the democratic nominees for the legislature to give emphasis to his displeasure at the position taken by his party at that time on the liquor question."

"I have used your most excellent medicine, Athlophores, and have found it all that it is recommended to be," writes George Hoffman, of Cedar Falls, Iowa, one of the many thousands benefitted by the great specific for rheumatism and neuralgia.

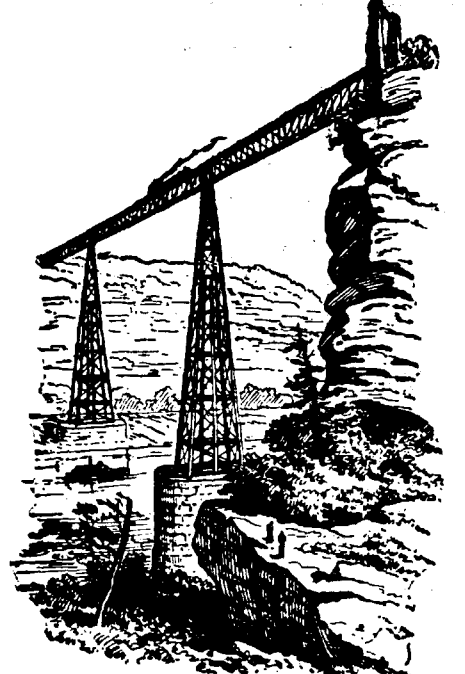

For over a quarter of a century Physicians have prescribed NICHOLS' BARK AND IRON, as a reliable and valuable remedy for dyspepsia and general debility.

TWO FAMOUS BRIDGES.

High Bridge, Kentucky, and a New One Across the Hudson.

In one of the most beautiful and picturesque locations in America stands High Bridge, Kentucky. It spans the Kentucky river, and is the railway crossing of the Cincinnati Southern road on its track to New Orleans. From the High Bridge are the finest views in that region for hundreds of miles around.

A flight of 600 steps leads the foot passenger down beside the bridge to the water below. Once an unwary traveler fell down the steps and was killed.

HIGH BRIDGE, KENTUCKY.

High bridge is one of the great bridges of the North American continent. Its three spans are together 1,135 feet long. It is 276 feet high. The idea of a bridge at this romantic spot is more than a generation old. It was first attempted to be carried out by the Lexington and Danville Railway company. They planned a suspension bridge. The president of the company had such faith in it that at his own expense he constructed the towers that appear in the illustration. Then the organization failed, and the towers stand to this day a monument of blasted hopes.

The Cincinnati Southern company bought the road bed of the former concern and built across the river a bridge of the ordinary construction, in which the towers were not utilized.

NEW HUDSON RIVER BRIDGE.

The bridge across the Hudson river at Peekskill is not built yet, except upon paper. It is not, but it is to be by the 1st of January, 1888, its charter says. The Union Bridge company, of New York city—Gen. W. C. Hart, president—has the contract for its construction.

It is to be a suspension bridge, patterned after those at Brooklyn and Cincinnati. Peekskill is a picturesque and wealthy town on the left bank of the Hudson, forty-two miles north of New York city, chiefly noted for being the summer home of Henry Ward Beecher. Crossed by Anthony's Nose, a mountain, 1,000 feet high. The bridge will cross from the side of this mountain, at a height above the Hudson river of 193 feet. This will leave room below for the passage of ships and steamers. Washington Irving in his highly picturesque history says the mountain got its name from the nasal organ of Anthony Van-Corleir. The bridge will cross from Anthony's Nose to old Fort Clinton on the west bank. The height above the water of the towers supporting the cables will be something tremendous, 310 feet.

It is proposed to connect on the west side of the river with the Erie railway, the Lehigh and Hudson, the New York, Susquehanna and Western, the Ontario and Western, the Central Railroad of New Jersey, the Pennsylvania railroad, the Reading, the Baltimore and Ohio, the New Jersey and New York, the Delaware, Lackawanna and Western, the Pennsylvania and Wilmington, and the West Shore railroads; on the east side of the river with the New York Central and Hudson River railroad and the New York City and Northern railroad—thus giving direct communication with the elevated railway system of New York city and the New York and Harlem, the Housatonic, the Naugatuck, the New York, New Haven, Hartford and Springfield, and the New York and New England railroads, a direct all-rail connection between the great western and southwestern states and all New England, the western river countries of New York and the city of New York.

As many as a thousand quakings of the earth have been felt in one day in New Zealand.

How Pale You are.

is frequently the exclamation of one lady to another. The fact is not a pleasant one to have mention, but still the act may be a kindly one, for it sets the one addressed to thinking, apprises her of the fact that she is not in good health and leads her to seek a reason therefor. Pallor is always attendant upon the first stages of consumption. The system is enfeebled and the blood is impoverished. Dr. Pierce's Golden Medical Discovery will act as a tonic upon the system, will enrich the impoverished blood, and restore roses to the cheek.

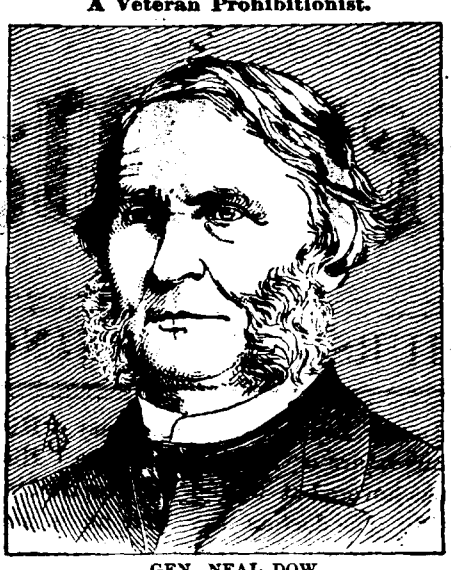

The republicans and fusionists expect to nominate a ticket Sept. 18. They will nominate a joint representative that day and a joint senator October 2.

They are Not sorry.

There is one thing nobody ever regrets—that is, the day they first adopted Parker's Tonic as their regular family medicine. Its range is so wide, and its good effects so sure, that nothing else, except good nursing, are needed in a great majority of cases. Buy it, try it, and afterwards it will not require any praise from us.

For over a quarter of a century Physicians have prescribed NICHOLS' BARK AND IRON, as a reliable and valuable remedy for dyspepsia and general debility.

A Veteran Prohibitionist.

GEN. NEAL DOW.

Gen. Neal Dow was the originator of the bugbear to the liquor traffic known as the "Maine law" and might be termed its backbone for the past thirty-five years, or since the present law was inaugurated. Gen. Neal Dow is at present in the neighborhood of 70 years. As the portrait shows he bears some facial resemblance to England's great statesman, Gladstone. He is also active and vigorous but here the likeness ends, for Gen. Dow is a small man with a slight figure. The stern lines of his mouth indicate great firmness of character and this is carried out in his career. He has been an unflinching advocate of principle throughout his whole life. He is to-day one of the principal leaders in the movement to establish an independent national party which will have for its plank the prohibition of the sale or manufacture of spirituous liquor, except for the use of the arts and medicine in this country. This party he claims will hold the balance of power in the presidential election of 1888.

He had not slept for twenty-four hours, coughing all the time. A dose of Dr. Bull's Cough Syrup broke his cough, and he slept quietly all night.

In the Hop Plaster are united fresh hops, gums and balsams, and its power is wonderful in curing back aches, sprains, bruises, neuralgia, pain in the side or soreness anywhere. Thousands testify to this.

Hay Fever.

I have been a periodical sufferer from hay fever (a most annoying and loathsome affliction), since the summer of 1879, and until I used Ely's Cream Balm, was never able to find any relief until cold weather. I can truthfully say that Cream Balm cured me. I regard it as of great value and would not be without it during the hay fever season.—L. M. Georgia, Binghamton, N. Y.

Consumption Can be Cured.

Not by any secret remedy, but by proper healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics in their fullest form. Prescribed universally by physicians. Take no other.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Jan. 19-codawlv.

MADAME MORA'S CORSETS.

MOST COMFORTABLE AND PERFECT. Merchants say they give better satisfaction than any corset they ever sold. Customers recommend them for their fine shape. Cannot be made over. Are particularly liked by Ladies and Gents. Sold by "TOILET" and "ALBINE" and the "PARISIAN" BAZAR, which covers the open space and protects the skin. The "TOILET" and "ALBINE" has the popular reputation. Beware of imitations offered to deceive the public. For sale by all leading dealers. Manufactured by Madame Mora's Corset, L. DIETETICS IN ENGLAND.

The Higher Life People Who Eat No Meat.

[Special correspondence.]
New York, Sept. 6.—My friend Louise has just returned from Europe, and has learned a good deal of interesting things. I don't know whether Louise is a theosophist or not, because they say that theosophists, real good ones, never advertise themselves as such. Louise, however, always knows all about the new things talked about among the people who are a little ahead of the rest of us; and while abroad she met several of the Chelias, Gurus, Munis and Rishies, who write the remarkable things that we read over here, with bulging eyes.

She had the pleasure of knowing several modern Pythagoreans—men and women who not only believe in pre-existence, but actually remember enough of their last embodiment to fix their identity. For instance, one man, a celebrated preacher, calmly said that he knew his previous personality perfectly, but as he did not particularize my friend did not inquire. Dr. Anna Kingsford is another who remembers her past, or is said to. She is a remarkable woman in all respects, the author of many excellent books, among them "The Perfect Way" and "The Perfect Way in Diet," and is also the leader of the opposition to vivisection in England. A thorough Buddhist is she in the matter of diet and regard for all forms of life. She eats no flesh whatever, and carries her theories against the slaughter of animals to the point of wearing vegetable shoes, eschewing leather altogether. These shoes, as described, are something new and extraordinary, but have not yet reached our murderous shores. Soles and all are constructed of some fabric made from plants, instead of the skins of beasts. They are said to look like leather, have the quality of endurance, and cost enough to make them popular with "the best society," which sees no merit in anything not expensive. They are vegetable, certainly, but the vegetable fibre is first made into paper, then pressed into a counterfeit of leather.

Neither will Dr. Kingsford wear feathers or furs, or any article of use or ornament which is procured by the destruction of its original and only legitimate owner. She is the founder of the Hermetic society, an organization made up principally of English theosophists, who wish to investigate occult subjects and acquire spiritual riches from a western standpoint—that is, untrammelled by any absurd reverence for Indian wisdom, simply because it is Indian. It is whispered about among Dr. Kingsford's friends that she is Lady Jane Grey, reincarnated. She is very learned, and acquired her learning by the intuitive method, which we are told by the seers and wise ones of the east, is the true way and the perfect way, and the one that will finally supplant the long, tedious, tiresome process of learning over and over now in vogue.

Dr. Kingsford has many followers of her rules of diet. Vegetarian restaurants have sprung up all over London, and meat is ruled out by the higher life people altogether. These anti-meat people call their diet the V. E. M., which being interpreted is, "Vegetables, eggs, milk." Some there are who draw the line on eggs. One doctor has given himself up wholly to the fight against eggs as an article of diet. He says they are too concentrated altogether.

My friend says that all the V. E. M. people whom she met, with the exception of Dr. Anna Kingsford, are yellow, unhealthy-looking creatures, and that the cooking in the vegetarian restaurants is the worst in the

world. Why the meat denouncers should be sallow and thin I can't imagine. Their food is surely more refined than that of the carnivora. An English lady in this country told me that she had been a follower of the vegetarian rules for some time, but was forced to abandon them because she found herself growing so sensitive in mind as well as body that she could not come in contact with others without suffering. She learned, she said, to feel what persons were about to say to her before they opened their lips; and to know, without a word, often, what they were thinking of. This is exactly what the strikers after spiritual light claim for their diet, and why they adopt it. They want to refine themselves in body and soul; to cultivate the sixth sense said to be in us all, but undeveloped because of our intensely materialistic lives.

Some of the English literature on diet is deliciously clear and irresistibly alluring. For instance, we are told that our Munis and Rishies have divided human food and drink into three classes—Sathic, Rajasic and Tamasic. If we want to make progress in Satwaguna we must register in the first class. The other two classes develop Rajas and Tamas altogether, and as everybody can see at a glance we can never climb spiritually if we have such qualities. All food of the first class starts one into Balha Sampaada, while that of the second and third class pushes one inevitably into Ashuris Sampaada. That being the case, who would take the consequences of Ashuris Sampaada for the sake of tickling his appetite? Not I. Who wouldn't develop Satwaguna at all costs? One author recommends "pure and simple cow's milk," some vegetable foods and fresh fruits. Ah, but we cannot all own "pure and simple cows," and must take our milk diluted, caiked, or otherwise manipulated as the milkman sees fit. Any one who eats Rajasic or Tamasic food acquires a thirst after terrestrial happiness and enjoyment which is never satisfied, but ever increases. With that awful result before our eyes, who would hunger for such deadly dishes?

My friend also saw Mr. Sinnett, author of "Esoteric Buddhism," and reports him as far less interesting than his books, which is often the way with authors. Mohini Chaturgi, the Hindu who writes much lofty theosophical literature, was also known to Louise. She says he looks like an abstraction. One can't think of him as an embodiment. He never shakes hands with any one. Thinks it is an unspiritual form of salutation. He is not a psychic, though a Chela of high degree. He wears the costume of the upper class Hindu, and has it made of black velvet for evening, and he speaks English exquisitely.

John B. Gough.

No man of the present century exerted such a marked influence on behalf of the temperance cause as the late John B. Gough. During the past forty years he delivered nearly 10,000 addresses and traveled hundreds of thousands of miles. On January 15, 1885, he wrote: "For many years I have used POND'S EXTRACT with great benefit. It has been my companion in my extensive travels. For brisies, chafing or irritation I have found it invaluable. For sore throat, especially when tending to ulceration, I have found it very beneficial."

In the Dear Old Days.

We differ in creed and politics, but we are a unit all the same on the desirableness of a fine head of hair. If you mourn the loss of his blessing and ornament, a bottle or two of Parker's Hair Balsam will make you look as you did in the dear old days. It is worth trying. It is the only standard 50c article for the hair.

No Words

could express the agony I endured from Rheumatism, and it was all I could do to endure it. Crisp, not able to walk or sleep, I took two-thirds of a bottle of ATHLORPHOS and in a few days was well."
T. E. CHATFIELD, 365 12th Avenue, Milwaukee, Wis.

Such is the universal testimony of all who have used ATHLORPHOS which is the only remedy for rheumatism that has ever had a successful sale, and it sells because it is a sure, safe, speedy cure. ATHLORPHOS contains no opium or other dangerous or injurious ingredient. It is absolutely safe, and is so pronounced by leading physicians of the country who prescribe it regularly for neuralgia and rheumatism. If you have any doubt as to its merit, write to the manufacturers for names of parties in your own State who have been cured of rheumatism and neuralgia by its use.

Ask your druggist for Athlorphos. If you cannot get it of him we will send it express paid on receipt of regular price—\$1.00 per bottle. We prefer that you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order at once from us as directed.

Peter Catez, a lad employed by Rhine-Smith & Simonson, leaped off the front of a Pittsburg switch engine last night and fell almost under the wheels. His right arm was crushed and Dr. C. B. Stemen cut it off. Two years ago the lad's father was run over and killed by a Pittsburg locomotive.

The Gatling gun squad met last evening and elected officers as follows: Frank E. Stouder, president; Darwin Root, secretary; Albert S. Barrett, treasurer. The gentlemen say the adjutant will send them a gun and two field pieces, although he said the other day he had no field pieces to spare.

A Roanoke correspondent says: "Ed Price, of the county seat, has been making several trips to this place on his wheel of late, in order to fit himself to enter the bicycle contest at the Allen county fair. Each trip he made lowered the record, the last being accomplished in thirty-eight minutes for the distance of ten miles, which, considering the condition of the roads in places, is surely hard to beat. We look for Ed to scoop in the first prize."

A BAD COON.

A Fort Wayne Deacon Robs the Camp and Elopes with a Cook.

"The camp meeting said to run under the auspices of the African M. E. church of Fort Wayne, had a decided sensation in their midst at Camden last Saturday morning when one of the preachers discovered that he had been robbed by the bass singer, Adams, of twenty-five dollars. This preacher, says the Bluffton Chronicle, had not been with the camp-meeting folks for some time, but returned to take an active part. He had not secured lodgings to suit him and made some complaint. Adams then gave him a pressing invitation to sleep with him which he accepted. On retiring Adams told the minister he was not feeling well and would perhaps have to get up in the night but he hoped he would not disturb his peaceful slumbers. Adams did get up in the night and rifled the preacher's pockets, and went to a livery stable, procured a rig and lit out with one of the cooks. He went to Montpelier, where he put the horse in the livery stable, telling the livery man that he would go off on the early train and a colored girl would call for the horse. His whereabouts is unknown since that time. Marshal Brown was telephoned the above information and asked to watch trains which he did without discovering the man. Adams has a wife and three children in Fort Wayne."

BICYCLE RACES.

The Fort Wayne Bicycle Club Hold Their Second Annual Road Races.

Yesterday afternoon between two and five o'clock the Fort Wayne Bicycle club held their second annual road races on the Leo road. The following is the score. Two mile novice race, for beginners in 1886:

Will Buckles, first, in 7:21; prize, gold medal. J. H. Young, second; prize, gold L. A. W. badge. Harry Pickard, third; prize, hub lamp. John Ohnhouse, fourth.

In the 100 yards slow race, Ed. C. Price, of Huntington, made the slowest time, but was ruled out for a "stand-still," under the rules. The starters and time were as follows: Ed. C. Price (slowest), 3:48; John Hanna, 3:20; Al. Foote, 2:27; Louis Ohnhouse, dismounted. The prize (gold pencil) was awarded Mr. Hanna.

Ten-mile open race: J. S. Evans first, 37:35-5; prize, gold medal. Ed. C. Price, second; prize, silk umbrella. Louis Ohnhouse, third; prize, bundle carrier. Will Paul started, but withdrew.

The officers of the course were: C. S. McLain, starter; John W. Kuhns, clerk; Steve Bond and Al. Foote, timers. J. S. Evans, Ed. C. Price, J. H. Young, Harry Pickard and Will Paul rode Columbia; Will Buckles, a Champion; Al. Foote, an American Safety; John Hanna, a Premier; Louis and John Ohnhouse, Victors.

The gold L. A. W. badge and the bundle carrier were presented by C. W. Edgerton.

Trying to Recover an Old Judgment.

In the United States District court, Indianapolis, yesterday, John Baumeister, of Louisville, filed suit against Henry G. Olds, of Fort Wayne, asking the sum of \$2,500. The complaint affirms that on the 23d day of last September the plaintiff entered into a contract with F. W. Chipman and C. E. Dalrymple, of Louisville, for the erection of a warehouse in that city, and that the defendant became the surety of Chipman and Dalrymple for the payment of the notes he took when the building was completed. The notes were not paid when due, and he brought suit against Chipman and Dalrymple in the common pleas court of Perry county, Kentucky, and secured judgment against them, but he found they could not satisfy the judgment. He is now suing to recover the amount of the judgment.

Fair Prospects.

The prospects for a fine exhibition at the coming fair grows brighter every hour. Enough entries have already been made to fill all the horse stalls. The Canadian horses that took the first and second premiums at Chicago, will be here Saturday night. Dr. C. B. Ebbey, the big Kentucky breeder, will be here with horses Saturday afternoon. These all come from Chicago. The circuit horses and stock will come here Saturday, Sunday and Monday from Toledo. The largest steer and the smallest cow in the world will be here. A fine display of live carp will be made in the exposition building by J. S. Tuttle, of Niles, Michigan.

The grand jury so far reported these indictments and on them Judge O'Rourke sentenced John Davis for stealing tools from the Johns' shop, and Wm. Kaylor, who stole a bride from Wm. Shoaff, to twenty days in jail each and \$1 fine. Henry Benjamin, who obtained eggs from John Brossard under false pretenses, pleaded not guilty, and will have a trial.

HONOR ABROAD.

Sir Knights O'Rourke and Berghoff Handsomely Recognized at Evansville.

The Indiana branch, Catholic Knights of America, in session at Evansville, elected the following officers for the ensuing two years: Supreme delegates to the council to be held at Chicago May next—J. Henry Schmits, Evansville, and Henry C. Berghoff, Fort Wayne. President, P. S. O'Rourke, Fort Wayne.

Vice-president Joseph E. Schu, Evansville.

Secretary, Alonzo S. Chapman, Madison.

Treasurer, T. M. Howard, South Bend.

The next meeting of the state council will be held in Madison, Indiana, beginning the first Tuesday in September, 1896. After the election the convention adjourned, and the visitors were escorted to the steamer Idlewild for an excursion down the river.

This telegram was read yesterday at the meeting of the Ohio Catholic societies at Toledo:

Third Ohio state council of C. K. of A.: The fourth Indiana council, C. K. of A., returns friendly greeting and wishes. Best success for church and state. P. S. O'Rourke, Pres't.

An Andrews correspondent says: "Hugh Hielop, of Fort Wayne, came to Andrews last Saturday, and spent Sunday in the east end of town. "She" just came from Fort Wayne last Tuesday and only stayed one week, but he could not stay away from her that long. He returned home Sunday evening."

LADS!

Who Want to be Hoosier Bandits.

They Attempt to Wreck Wabash Trains to Get Ryan For Injuries Inflicted on Them.

Wells in Illinois are Drying Up, and People Out There are Much Alarmed.

BOY BANDITS.

Three Hoosier Lads Arrested for Wrecking a Wabash Train.

PERU, Ind., Sept. 9.—Detectives Potter and Marshall yesterday morning arrested and lodged in jail Jesse Scholt, aged twelve; Frank Sheldahl, aged fourteen, and Phil Bender, aged eighteen, on a charge of attempting to wreck a train on the El River division of the Wabash railroad, about one month ago, at Mexico. The boys were in the habit of boarding outgoing trains and riding a mile or two. The trainmen kindly advised them to stop the practice, fearing an accident might befall them. The boys did not heed the advice, and one day shortly before the attempted wrecking, they boarded the train, thinking they would have their usual ride, when the engineer pulled out a little faster than usual. The boys jumped off, and all received slight injuries. They all finally recovered and, it is supposed, entered into a plot to wreck a train, as it was but a few days afterward when the attempt was made. Large stones and trees were piled on the track. The evidence seemed sufficient to sustain the crime upon these boys, who are all sons of respectable people.

DRYING UP.

Wells and Ponds Succumb to the Terrible Drought.

CHICAGO, Sept. 9.—A special from Tolon, says: The drought in this locality is getting to be a serious matter. Several weeks ago the wells began failing and now a large part of them are dry. Every stream and pond about here, excepting only the Kaskaskia river on the west and the Embarras on the east, is as dry as a powder house.

Geronimo to be Tried by Court Martial.

SAN FRANCISCO, Sept. 9.—General Sheridan to-day directed General Howard to send the Apache and Warm Spring Indian tribes at once to Fort Marion, Fla., except Geronimo and the other Apache who will be taken to Fort Bowie and confined under guard until the government decides what to do with them. It is understood that they will be tried by the court-martial. They will not be handed over to the civil authorities, as the district attorney says he cannot procure the necessary evidence on which to try them. Some of them are expected to save themselves, in order to save themselves. The Apaches at Fort Apache will be started for Florida to-morrow.

Vermont Republican by 18,000.

BURKINGTON, Vt., Sept. 8.—Two hundred and five out of 240 towns have made returns, and the result shows that Edmunds is assured of re-election by an overwhelming majority. The republican state ticket is elected by 17,000 to 18,000 majority. The republicans have elected all their county tickets.

The state prohibition vote will be much smaller than expected.

Professor Strunk Indicted.

NEW ALBANY, Ind., Sept. 9.—Prof. Ira G. Strunk was indicted yesterday by the Floyd county grand jury for murder in the first degree in the killing of Charles V. Hoover, and also for assault with intent to kill in the shooting of Dr. C. L. Hoover. He will be arraigned in the circuit court to-morrow morning. The trial of the case will probably begin September 27.

A Victory for the Strikers.

PITTSBURGH, Sept. 9.—A Youngstown, Ohio, special says: "The strike of the brakemen of the Pittsburgh and Western railroad ended at noon to-day in a victory for the men. The company granted the demand of the conductors yesterday but they refused to work this morning unless ten per cent increase was also given the brakemen."

THEY MEET.

Capt. Scott Swann Shoots Dr. J. W. Young and is Arrested for Attempted Murder.

Just as THE SENTINEL expected and tried to avert, Capt. Scott Swann and Dr. J. W. Young met last evening and their bitter feud culminated in a shooting affray. The quarrels of the men are known to have begun in a contest for control of the Tri State veteran association. Then followed bitter personal attacks, libel and counter libel suits too numerous to mention.

Mr. Swann is a man of few words, but his friends knew there would be trouble when he met the doctor, and they were not mistaken. Messrs. Sullivan and Harper, who were likewise arrested yesterday by the Huntington sheriff, talked and walked with Captain Swann and endeavored to appease his wrath.

Mr. H. O. Hanna was at Indianapolis yesterday and the captain proceeded to the depot to meet him. It was supposed Dr. Young was at Huntington, and fearing a collision Sheriff Nelson and his deputy, Ed. Olschmeyer, followed him hastily in a carriage. South Swann stood on the Pittsburgh side of the depot as the west-bound Wabash train pulled in. Quicker than it takes to tell it the doctor, who came from Detroit, stepped off and walked quickly towards Scott Swann, who, without a word, pulled his pistol and sent a bullet into Dr. Young, who turned about and ran back towards the Wabash train, crying, "I'm shot!" etc., at the top of his voice.

Before Swann could repeat his shot, Ed. Olschmeyer disarmed him and instantly Sheriff Nelson and Officer Rohle were at his side and conveyed him to jail, after a visit to Swann's home, where the scene was heart-breaking when he related his work to his wife and daughter. Dr. Young in the meantime ran to Beverford's drug store on Calhoun street, near the Wabash depot and there felt exhausted from his wound. The shot was fired when Dr. Young's back was turned as the bullet entered his body about two inches above the hip bone on the left side. It passed through the left side of the body, cutting both the spinal cord and the peritoneum and lodged under the skin directly below the point of the lower rib, about three inches to the left of the naval, from which lodging place it was cut by Drs. Mayers, Van Buskirk and Barnett, the consulting surgeons, after Dr. Young was removed to his home.

Mr. C. M. Dawson, the states attorney, this morning filed an affidavit charging Scott Swann with having "feloniously, purposely and with premeditated malice and in a rude and angry manner, assaulted and injured with intent to kill and murder John W. Young." On this charge Captain Swann is held in jail and Mr. Dawson will postpone a hearing, if he can until the extent and end of the plaintiff's injuries are known. Mr. Dawson also placed the matter before the grand jury at 11 o'clock, and an indictment from that tribunal is promised.

Capt. Swann does not talk about the tragedy, but his friends assert that his act was not only provoked by Young's repeated and continued attacks, but that it was also warranted when Dr. Young approached him holding his hand ostentatiously on his hip pocket, from which a pistol was afterward taken. Last week the doctor carried two self-loading guns, and one of them, together with Captain Swann's weapon, is in Sheriff Nelson's office safe.

ALBION THE SENTINEL representative called at the residence of Dr. J. W. Young and was admitted to the sick room. The doctor lay on his right side in a bed, moaning with pain. Blood from his wound had stained the clothing, and although under the influence of opiates he recognized the newspaper man and shook his head. "How did it happen," was asked.

"I got off the train," said the patient, "and had my case, hand satchel, overcoat, hat box and a bundle of papers in my hands and was crossing over to get a carriage. I just reached the Pittsburgh track when a pistol in the hands of that man glinted before me and I turned and ran, not being prepared for such an attack. The electric light dazzled me when I first stepped from the train and I did not see nor expect to meet him."

"Did you have your hand on your hip pocket?"

"No, sir; I had a now list in a box, and the articles I first named. How could I have a hand in my pocket?" Dr. Barnett says he stood in front of Beverford's drug store when the doctor ran towards him. He says the doctor had all the articles in his left hand and that his right hand was free.

Doctor Young is resting easy. His temperature is a little excessive. His pulse hovered at 90 and his respiration at 16. The doctors say that he is no worse, but will not predict his recovery. They say they cannot tell to what extent inflammation will set in. All night long the surgeons were at his bed side and his wife is her husband's constant attendant, while her father is there to assist her. At this writing Dr. Young has not known his fate, but the indications are that he will live, although some doubt it.

RAILROAD EARNINGS.

Great Increase of the Pennsylvania and Grand Rapids and Indiana this Year.

The Pennsylvania's western lines seem to be helping to swell the earnings of this great system wonderfully this year. The monthly statement of the amount the net earnings have exceeded or fallen short of the liabilities, which is given for the whole Pennsylvania western system, has great value, but not as much as a full statement of the earnings and expenses. Such reports are nowhere more needed than in the territory north of the Ohio, where none of the railroads with large traffic, like the Michigan Central, the Lake Shore, the Fort Wayne and the Pittsburgh, Cincinnati, St. Louis, make any monthly reports. The Grand Rapids and Indiana also reports for July contrary to its custom a gain of 15 per cent. in gross and 65 per cent. in net earnings.

Bicycle Race.

The Gazette, of this morning, speaking of yesterday's race, says that Price won the slow race but was barred out by the club.

One of the rules of this race—and it was well understood by the contestants—was that the bicycle must be kept moving forward and if it came to a standstill the rider was out of the race.

Mr. Price while making the best time, neither won the race nor was barred out by the club, but allowed his wheel to stop and was properly ruled out by the judges.

COLUMBIA CITY POST.
The Allen county democracy is to be congratulated on the excellent ticket placed in the field last Saturday.

The one term principle is in vogue in Allen county; at least, it was the case in the county convention last Saturday.

Allen county democrats nominated a one-legged union soldier for recorder and now the republicans are shouting "treason!"

The double term business was settled most effectually at Fort Wayne last Saturday, and will never see another convention in that county, even if the pending amendment should fail to become a law.

Saturday was a great day for the democratic folk in all Allen. The ticket nominated is an invincible one and every man on it is a host in himself. Four thousand majority should greet the ticket in November.

Jas. M. Barrett and Wm. H. Shambough were, Saturday last, nominated by the democracy of Allen county for the offices of state senator and representative. Both of these gentlemen are talented young lawyers and are well known in legal circles here.

FOREIGN NEWS.

Prince Alexander and the Bulgarian Ministers Arrive at Turn Severin.

TURN SEVERIN, Sept. 9.—Prince Alexander, Stambouloff, Karaveloff, and nearly all the Bulgarian ministers arrived this morning in a yacht. Roumanian troops received the prince at the landing and lined the route along which he passed to the railway station. Alexander took leave of his ministers and officers here. The farewell was very affecting. A Bulgarian side-decamp will accompany Prince Alexander from here. He will leave Turn Severin this afternoon and proceed direct to his parental home at Danubial.

St. Petersburg, Sept. 9.—The St. Petersburg papers generally take the position that the present regency and ministry of Bulgaria contain elements of fresh complications.

DIMBURY, Sept. 9.—A conference of Catholic bishops at Maynooth, adopted resolutions to-day, declaring that the Irish people appreciated Gladstone's efforts in behalf of Ireland and that they still adhere to their demand for home rule, and indignantly denying the Tory assertion that if the Irish people were allowed to govern themselves in domestic affairs, the Catholic majority would abuse the power conferred on the Irish parliament and harass the protestants of the country.

MIL SEDGWICK.

He Makes a Personal Denial of the Stories About Him.

New York, Sept. 9.—The following explains itself:

To Editor Evening Post:
SIR:—A week ago I went to a ball and stayed to the end. I went home and to bed early. Next morning my friend, Mr. Guinand, came to call upon me and found me dressing. We went out. All the officers and members of the jockey club, who are the principal people of the city, have signed a letter exonerating me from all improper behavior at any time during the ball. The gentlemen who saw me return from the ball, have signed a card that they observed nothing, except that I went towards my room. I have Guinand's statement in writing as to his calling in the morning, besides the statement of the hotel manager, that no scene or row of any kind took place in the hall, and also, that I went to my room after the ball, and no eye witness has been produced and I only know from hearsay, what theories were circulated in the United States are. Secretary Bayard has telegraphed me, that my personal denial of the scandal is enough. Make any use of this you think proper.

Next Tuesday the colored grand lodge of Masons of the state will meet in Jeffersonville, and will be in session two or three days.

The receipts of the art loan exhibition given by the O. A. R. of Wabash, were \$1,800, and the expenses \$600, leaving \$1,200 as a starter for the county soldier's monument.

Capt. Cyrus Vigna, of Logansport, celebrated his ninety-third birthday last Saturday. Aside from the pleasant recollections of his ninety-third birthday anniversary, he received his first pension money of \$50 per month, which the government recently ordered paid to him for meritorious services when a soldier in the Mexican war.

The general annual conference of the German Methodist Episcopal church for the states of Ohio, Michigan, Illinois, Kentucky, West Virginia and Indiana convened at the church in Lafayette this morning. The regular business of the conference will occupy the time until next Monday, on which day the appointment of pastors for the different states named will be made. The number of ministers in attendance is over 180.

Yesterday morning two well-dressed strangers were observed walking along the Lake Shore railroad track near Laporte. When they reached Terry Camp, a small station sixteen miles east of there, one of the men took a jack-knife from his pocket and deliberately cut his throat. A frightful wound was made, and it is reported that he will die. The wounded man's name is said to be Hyne.

OVER THE DISTRICT.

How the Political Work Goes On—The Gospel.

COLUMBIA CITY POST.

Stanley, the second republican candidate for congress, received three votes for delegate in his township last spring against fifty-seven cast for a Lowry man.

A late estimate puts the total number of anti-Lowry men in Lagrange county at 38. They will come over to the majority before the snow falls.

The Gazette gives Lowry credit for the selection of the whole county ticket of Allen county. Lowry must be a mighty man according to the Gazette.

Is it true that Captain Whitteford of Tilden, Hancock and Cleveland? His supporters, some of them at least claim he did. Let some good republican answer.

Pat Whitley down for at least 350 majority.

Indiana must give us 15,000 democratic majority.

The Stanley campaign seems to be passing into a state of "innocuous desecration."

THE SEA SERPENT.

Portrait of the Monster from Descriptions by Capt. Robert Bruce.

From a careful description of Capt. Robert Bruce, of the schooner Mary Ann, who was directed to cruise for summer, when an accurate engraving of the sea serpent seen in the Hudson river by the captain, and by many others on several occasions since.

There seems to be no longer any doubt of the existence of this marine monster. For a century or more similar reports have been seen and described, but the stories have been discarded as mere romances, when through the possession of the monster in actuality itself, it can no longer be considered a myth.

In the last century a missionary to Greenland described such a monster. This was on July 4, 1744. Soon after this the Bishop of Bergen, a member of the Copenhagen Academy of Sciences, published a "Natural History of Norway," in which he collected considerable evidence to prove the existence of this monster. In 1837 the sea serpent was first seen opposite Gloucester, Mass., and the Lincoln society of New England, after carefully investigating the alleged apparition, reported that it resembled the testimony obtained "sufficient to place the existence of the animal beyond doubt." On Aug. 4, 1848, Capt. Ste. Quelin, in command of the Despatch of the British navy, encountered a sea serpent. But this year the monster has been seen several times, notably off Gloucester on the Massachusetts coast and in the Hudson river and by highly reliable witnesses. It is the animal best carefully reported. It is to be hoped at least a photograph of him may be obtained when the recovery of our picture of him will be established.

OUR JOE!

With Cleveland in the Adirondacks.

The Mission is About Hoosier Politics and the President Invited Out Here in October.

Detective Norris is Having a Quarrel with Bohemian Oats Sharks in Ohio.

McDONALD'S MISSION.

Old Saddlebags Visits Mr. Cleveland, Supposedly to Talk of the Indiana Campaign.

WASHINGTON, Sept. 9.—A special states that ex-Senator McDonald has gone to see the president at Adirondacks. Though nothing has been given out, it is understood to mean the visit is for a conference with Mr. Cleveland relative to the coming campaign. The Indiana democracy will try to prevail upon the president to make a visit to that state about the middle of October, previous to the election in November. They believe that his presence there at that time will add to the enthusiasm of the canvass and make democratic victory sure. This may be their belief, but a well known Indiana democrat here asserts that if Mr. Cleveland visits the state this fall it will cost the democrats 10,000 votes. There is no danger, however, of the president making the visit. He would not go there if he knew his presence for an hour would insure the state for the democracy.

GOOD DEMOCRATIC DOCTRINE.

It is gratifying to know that the Randall school of protestantism in the democratic party did not capture the National democratic congressional committee this year, as they have generally done heretofore. The campaign book came from the printer to-day, and is now being circulated. It contains considerable tariff literature, and of the right sort. Indeed, the book is a good old-fashioned democratic work, and speaks out plainly and boldly for a tariff for revenue only. For this the thanks of the democracy are due to Chairman Kennon, Secretary Robertson and Hon. Phil. B. Thompson, Jr. The latter edited the work.

NORRIS IN JAIL.

The Famous Detective Surrounded With Vindictive Bohemian Oats Swindlers.

TRAVIS, O., Sept. 9.—John T. Norris, the great Springfield sportsman, arrived in the city yesterday with a satchel full of warrants and began stirring the Bohemian oats and red line wheat rascals up in great shape. They were stirred considerably and badly scared as well. They gathered together with the "innocent" holders of the notes and the "distressed" attorney, Judge McCauley, and decided to try a little maneuver on John T. So last night after dark Edward S. Clark appeared before Squire Jayne and swore out an affidavit charging Norris with trying to extort \$500 from him to settle one of the cases. A warrant was issued and Norris arrested. This created quite a ripple of excitement and Norris' enemies here were happy. His bail was fixed at \$500 and every one of the swindlers and a number of others tried their best to prevent his obtaining bail, and succeeded. He did not get bail and was locked up in jail. He got him to come in who were ready to go his bail, but they were surrounded, and by threats intimidated out of it. The trial is set for next Saturday.

HON. W. R. McBRIDE was re-elected to congress in the eighteenth Illinois district.

SENATOR HARRISON will open the campaign in this state for the republicans at Indianapolis next Saturday evening.

The president is expected to return to Washington next week, when Mr. Bayard, the only cabinet officer in the city, will take his vacation.

EX-SENATOR McDONALD, of Indiana, is said to be visiting the president in the Adirondacks, presumably to discuss Indiana politics with him.

The work of the Allen county democratic central committee does not suit the republicans and it is probable that some of them will vote the democratic ticket. "The republicans hate democratic harmony."

Governor GRAY opened his speech at Legation with the declaration that he "would not of his arm before he would lie to his audience." The governor then laid down democratic doctrine enough to put the republican press into convulsions.

This democratic campaign book was issued yesterday, and is said to contain a large amount of very interesting reading for the people. It is a good, old-fashioned democratic publication, which speaks out plainly in favor of a tariff for revenue only.

Mr. J. B. Brown, who has been criticizing President Cleveland because he did not appoint him public printer, now attacks Hon. A. P. Ferguson, the civil service commissioner. This Senator would have rejoiced in Mr. Stoll's success in his aspirations for a federal place, but it is mortifying to see him now giving the republican press democratic material to attack with. Mr. Stoll mistakes the public enemy, if he believes such a course is appreciated by his party.

The Evansville Courier published at the home of Capt. Lemcke, the republican nominee for state treasurer, says that gentlemen, two years ago, "voted for the democratic candidates for the legislature because he did not approve of the position taken by the republican convention of that year on the liquor question."

"We shall be outwitted," the Courier continues, "to see how Capt. Lemcke will reconcile his candidacy upon the present platform of his party with his action of two years ago, when he repudiated a very innocent declaration on the liquor question, comparatively speaking, and voted for the democratic nominees for the legislature to give emphasis to his disapproval of the position taken by his party at that time on the liquor question."

"I have used your most excellent medicine, Atholophore, and have found it all that is recommended to be," writes George Hallman, of Cedar Falls, Iowa, one of the many thousands benefited by the great specific for rheumatism and neuralgia.

TWO FAMOUS BRIDGES.

High Bridge, Kentucky, and a New One Across the Hudson.

In one of the most beautiful and picturesque locations in America stands High Bridge, Kentucky. It spans the Kentucky river, and is the railway crossing of the Cincinnati Southern road on the track to New Orleans. The bridge is the finest in the world, and is the only one of its kind in this region for hundreds of miles around.

A flight of 600 steps leads the foot passenger down to the bridge to the water level. Once an untimely traveler fell down the steps and was killed.

HIGH BRIDGE, KENTUCKY.

High bridge is one of the great bridges of the North American continent. Its three spans are together 1,235 feet long. It is 250 feet high. The idea of a bridge at this romantic spot is more than a generation old. It was first attempted to be carried out by the Lexington and Louisville Railway company. They planned a suspension bridge. The president of the company had such faith in it that at his own expense he constructed the towers that appear in the illustration. Then the organization failed, and the towers stand to this day a monument of failed hopes.

NEW HUDSON RIVER BRIDGE.

The bridge across the Hudson river at Peekskill is not built yet, except upon paper. It is not, but it is to be by the end of January, 1887, its charter says. The Union Bridge company, of New York city—Gen. W. C. Hart, president—has the contract for its construction. It is to be a suspension bridge, patterned after those at Brooklyn and Cincinnati. Peekskill is a picturesque and wealthy town on the left bank of the Hudson, forty-two miles north of New York city, directly north of the summer home of Henry Ward Beecher. Close by is Anthony's Nose, a mountain 1,000 feet high. The bridge will cross from the side of this mountain, at a height above the Hudson river of 133 feet. This will leave some 100 feet of the river for the passage of the great steamers. Washington Irving in his history of the Hudson says the mountain got its name from the head of Anthony Van Corlaer. The bridge will cross from Anthony's Nose to old Fort Clinton on the west bank. The bridge above the river of the river is the only one of its kind in the world. It is the only one of its kind in the world. It is the only one of its kind in the world.

How Pale You are.

Is frequently the exclamation of one lady to another. The fact is not a pleasant one to have mention, but still the fact is not a kindly one for it sets the one addressed to thinking, appraises her of the fact that she is not in good health and leads her to seek a remedy. There is a remedy for this. It is a remedy for this. It is a remedy for this.

The republicans and fusionists expect to nominate a ticket Sept. 18. They will nominate a joint representative that day and a joint senator October 2.

There is one thing nobody ever regrets doing in the day they first adopted Parker's Tonic, so their regular family medicine. Its range is so wide, and its good effects so sure, that nothing else, except good nursing, are needed in a great majority of cases. Buy it, try it, and afterwards it will not require any praise from us.

For over a quarter of a century Physicians have prescribed NICHOLS' BARK AND IRON, as a reliable and valuable remedy for dyspepsia and general debility.

A Veteran Prohibitionist.

GEN. NEAL DOW.

Gen. Neal Dow was the originator of the temperance law known as the Maine law, and he has learned his lesson for the past thirty-five years, when the present law was inaugurated. Gen. Dow is at present in the neighborhood of 70 years. As the portrait shows he bears some facial resemblance to England's great statesman, Gladstone. It is his vigorous vigor, and here the likeness ends, for Gen. Dow is a small man with a slight figure. The stern lines of his mouth indicate great firmness of character and this is carried out in his career. He has been an unflinching advocate of principle throughout his whole life. He is one of the principal leaders in the movement to establish an independent national party which will have for its plank the prohibition of the sale or manufacture of spirituous liquor, except for the use of the arts and medicine in this country. This party he claims will hold the balance of power in the presidential election of 1888.

He had not slept for twenty-four hours, coughing all the time. A dose of Dr. Bull's Cough Syrup broke his cough, and he slept quietly all night.

In the Hop Plaster are united fresh hops, gum and balsam, and its power is wonderful in curing back ache, sprains, bruises, neuralgia, pain in the side or anywhere anywhere. Thousands testify to this.

Has Fever.

I have been a perpetual sufferer from hay fever (a most annoying and exhausting affliction), since the summer of 1879, and have used Dr. Ely's Cream Balm, was never able to get any relief until cold weather. I can truthfully say that Cream Balm cured me. I regard it as of great value and would not be without it during the hay fever season.—L. M. Georgia, Birmingham, N. Y.

Consumption Cures by Cod Liver Oil.

Not by any secret remedy, but by proper liberal exercise and the judicious use of Scott's Emulsion of Cod Liver Oil, and Hypophosphites, containing the healing and strength-giving virtues of these two valuable ingredients in their fullest form. Prescribed unconditionally by physicians. Take no other.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes up "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle. Jan. 19-cod-liv-oil.
